Case Study

Customer Experience - Client: BAS - Uruguay

Department store interested in improving the experience of its customers. The kiosks were installed at checkout points, then quality service surveys were implemented, and a study direct competitors was carried out. Backoffice web managed by the Marketing team. Online dashboards segmented by store and shifts.

Technology

Plataform: mBaas with Firebase Realtime Database, business logic and user control.

Front: HTML5 + Angular2, Typescript, Node.js Java.

Back: API REST, spring + google bucket.

Kiosk: Tablet Android 10".

Reporting: MicroStrategy.

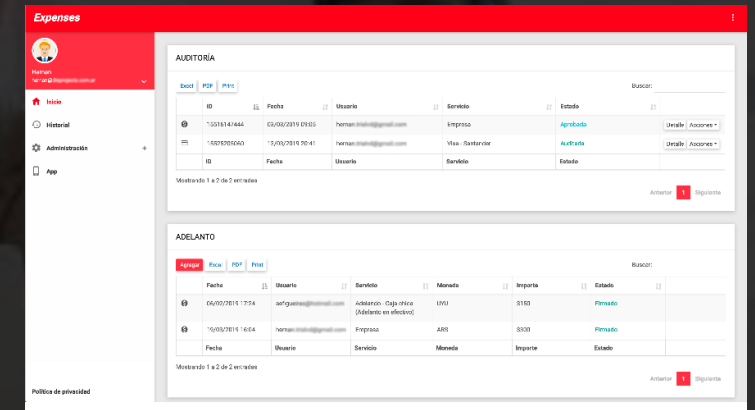

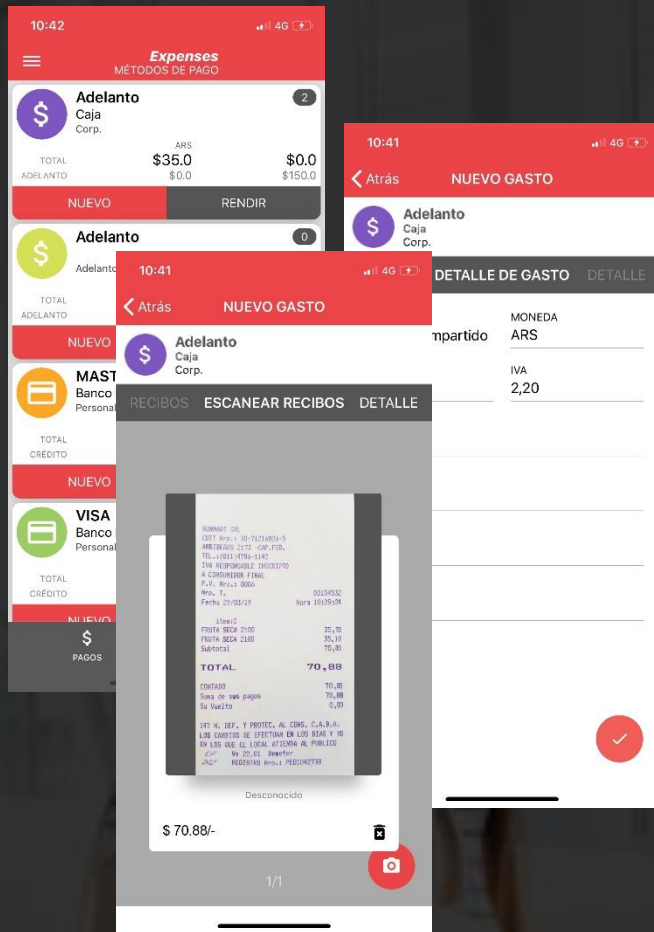

Case Study

Expenses - Client: Halz Zimmios - Spain, Italy, Armenia

Remote expenses management system. Advance request from the app, cash items and corporate cards, voucher scanning and OCR. Multicurrency / Multilanguage. Management of approver profiles, users and auditing. Generation of general and personal reports, online visualization through dashboards.

Technology

Web: HTML5 + Angular2, Typescript, Semantic, Node.js. Java, Spring, Spring Boot, Spring Repository, Spring Web Services, Spring Security, Docker, REST APIs & Sonar.
Mobile: iOS & Android, native.
Reporting: MicroStrategy
QA Automation: BDD + Selenium.

Case Study

Loyalty & Rewards - Client: Aliss - Costa Rica

Customer loyalty and recognition system, by accumulating points with purchases in stores and product exchange in them. Batch processing of consumptions for the accumulation and management of alerts to clients on special dates (birthdays, mother's day, etc.).

User Management, Products and relationship \$ / Point.

Online dashboards segmented by store and shifts.

Technology

Front: HTML5 + Bootstrap3.

Back: NET Core + API REST + SQL Server 2016

Reporting: MicroStrategy.

QA: Cucumber

The screenshot displays the administration interface for the Aliss Loyalty & Rewards system. It features a navigation menu at the top with options: Administración, Gestión, Puntos, and Reportes del Sistema. The main content is split into two panels. The left panel, titled 'ADMINISTRACION DE PRODUCTOS', contains a form for product management with the following fields: ID Producto (text input), Título (text input with value 'Molde'), Descripción (text input with value 'Molde'), Tipo Producto (text input with value 'Acces'), Marca (text input with value 'NA'), Categoría (text input with value 'Cocin'), Precio (text input with value '320.0'), Stock Mínimo (text input), and Stock Máximo (text input). The right panel, titled 'ADMINISTRACION DE CANJES', includes a 'VER CARRITO' button and a table of items in the cart. The table has columns for ID Producto, Título, Descripción, Tipo de Producto, Marca, Categoría, Precio, and Imagen. Two items are listed:

ID Producto	Título	Descripción	Tipo de Producto	Marca	Categoría	Precio	Imagen
+	1	Cafetera	Cafetera Electrica	Electrodomestico	Hogar	Cocina	500
+	2	Funda Celular	Funda Silicona	Accesorios	n/a	Accesorios	50

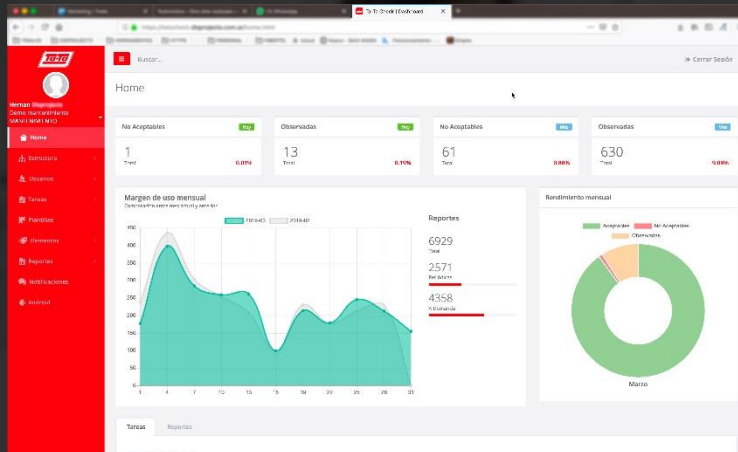

At the bottom of the interface, there are social media icons for Twitter, Facebook, and LinkedIn.

Case Study

ToDoChecks - Client: *TaTa* Supermarkets - Uruguay

Distributed system to manage and assign tasks to users and groups relationships. Geolocation and Geofence are used to restrict the area of action and give specificity to the service.

Generation of general and personal reports, online visualization through dashboards.

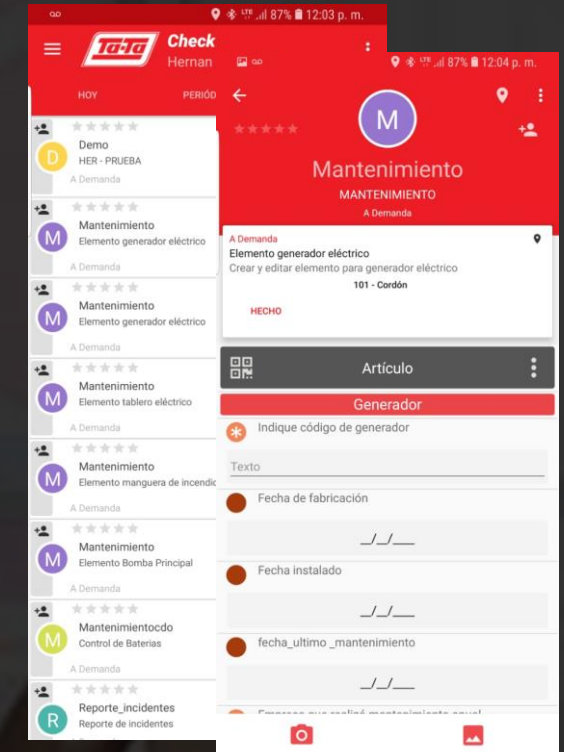

Technology

Web: HTML5 + Angular2, Typescript, Semantic, Node.js. Java, Spring, Spring Boot, Spring Repository, Spring Web Services, Spring Security, Docker, MariaDB, REST APIs & Sonar.

Mobile: iOS & Android, nativo. Push notifications

Reporting: MicroStrategy

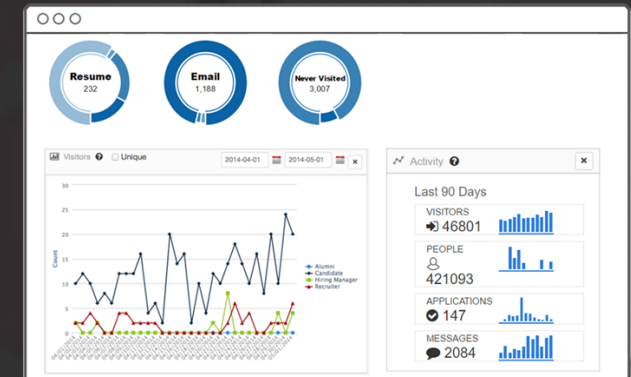

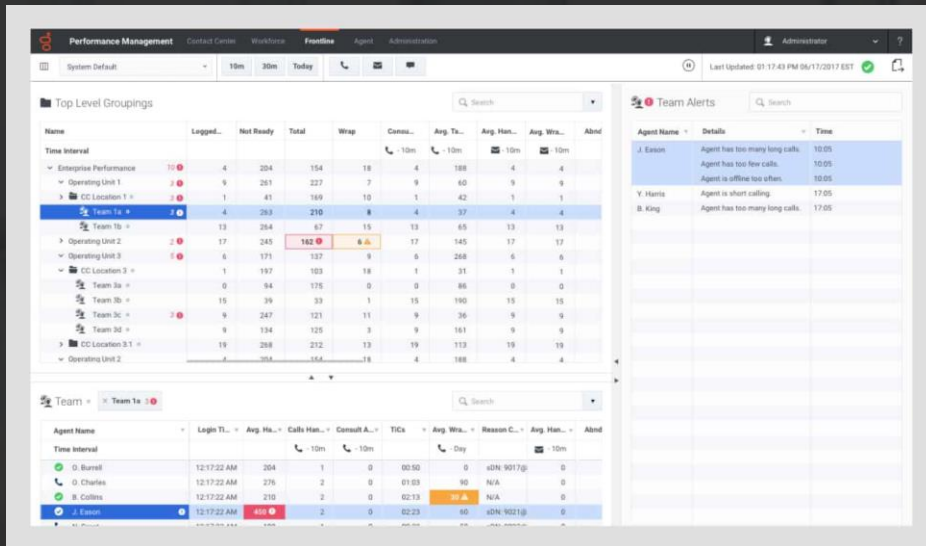

QA Automation: BDD + Selenium, Sauce Labs for UI testing.

Case Study

Dynamics + Génesis - Client: Davivienda - Colombia

Integration of CRM Dynamics Social Media Manager to reduce the time of attention per claim of the call center and improve the user experience through an omnichannel attention model. Reporting in Tableau and alerts in Splunk

Technology

CRM Dynamics 365, customer services + social media manager. Integration through APIs Java, Node.js. Spring Boot
Mobile: Hybrid, responsive. Push Notification before critical index event triggers.
Reporting: Tableau

Case Study

MasterData to Cloud - Client: Procesa - Panamá

Migration from legacy MDM to Spark cluster-mounted cloud as part of the Hadoop solution. Advanced Analytics Models to detect clients suitable for upselling, cross-selling and making personalized product offerings. Increase in sales over 20%.

Azure HDInsight
A secure and managed Apache Hadoop and Spark platform for building data lakes in the Cloud

- Open Source**
 - 100% Apache Open Source
 - The most popular open source frameworks
 - Part of the Hortonworks HDP distribution
- Managed**
 - 99.9% availability SLA
 - Cluster Health Monitoring
 - Integration with Azure Log Analytics
 - Highly optimized for Azure
- Secure & Compliant**
 - Role based access control
 - Azure AD & Kerberos based authentication
 - Strong VNET and service endpoint support
 - The most trusted and compliant platform
- Productive**
 - Works with the tools developers already have
 - Special extensions for advanced debugging and diagnostics
- Lift & Shift**
 - Move workloads from on-prem or other clouds without code changes
 - Curated application platform for wide variety of use cases

Integrations:

@ashishth

Technology

MasterData Legacy solution based on SQL 2008 and C#. Implementation of Azure HDInsight

Mobile: Responsive, hybrid. Push notifications when parameterized thresholds are exceeded.

Reporting: Microstrategy

How We Work

Dream

We perform workshops to reinvent and design innovative products

Design

UX-UI designs from the beginning to create Digital Experiences

Build

Web and Mobile Development using state-of-the-art technology

Scale

Ready to improve, integrate and scale the technical teams

Clients Recognition

DEL NOROESTE
LOGÍSTICA EN TRANSPORTE

“We quickly moved from being a small family business to a company with presence throughout the entire country. Adviters helped us with this transformation designing new processes for client administration, training us in hard and soft skills and creating our management system that we use for employees, customers and vehicle tracking.”

Eduardo Codesido - General Manager - DNL

Clients Recognition

“I would highly recommend Adviters because their deep understanding of each situation, with a high applied knowledge of every step of the process and activity they performed giving us a tremendous extra value, demonstrating a great flexibility in working through our challenges creating a long relationship based on the productivity and trust. ”
