About Us

Trained Personnel

We have vast experience in local and worldwide grain & subproducts trade. Our personnel is certified in Argentina by SENASA and internationally in both solid and liquid products by GAFTA and FOSFA

Mision

We are devoted to the internationalization of local companies, detecting needs worldwide and bringing forward producers to them. Thus enabling the insertion of those who accept the challenge, in worldwide trade, making our clients and product portfolio more extensive each day.

Vision

We accompany producers in the commercialization of their products at an international level, accepting, through this, the need to add value, growth and reinvent themselves economically and commercially for their own, and their region's development

Location

We are strategically placed in the core region of Argentine's biggest agro-industrial complex, where most of it's exports come from. This allow us to develop agile and efficient logistics

Services

Doing business with us guarantees...

We have the necessary resources set on establishing partnerships around the globe, enabling direct supply straight from the source for the buyer, and no middlemen for the producers

We approach your company to the other market operators; connecting suppliers and consumers through an extensive analysis to find the perfect match

We work hard to make your business happen

Guaranteed responsibility in dealings

Our solid work team's credited experience, accomplished market operators, expedites procedures enormously

We create solid commercial relationships, developing lasting ties among them

We offer compromised and personalized attention to suit each client's needs, creating alternatives for different production outputs
