

# Agrofin

Agrocommodities

We are a company with more than 10 years of experience in the local and international agri-food market. We are focused on LEGUMES - beans, peas, lentils, and chickpeas - GRAINS and SEEDS - popcorn, moha, coriander, sunflower seeds, millet, birdseeds, etc -

We annually take part in international fairs and events like GULFOOD, SIAL PARIS, ANUGA KOLN, ALIMENTARIA BARCELONA, SIAL SHANGAI and many others.

**Location:**

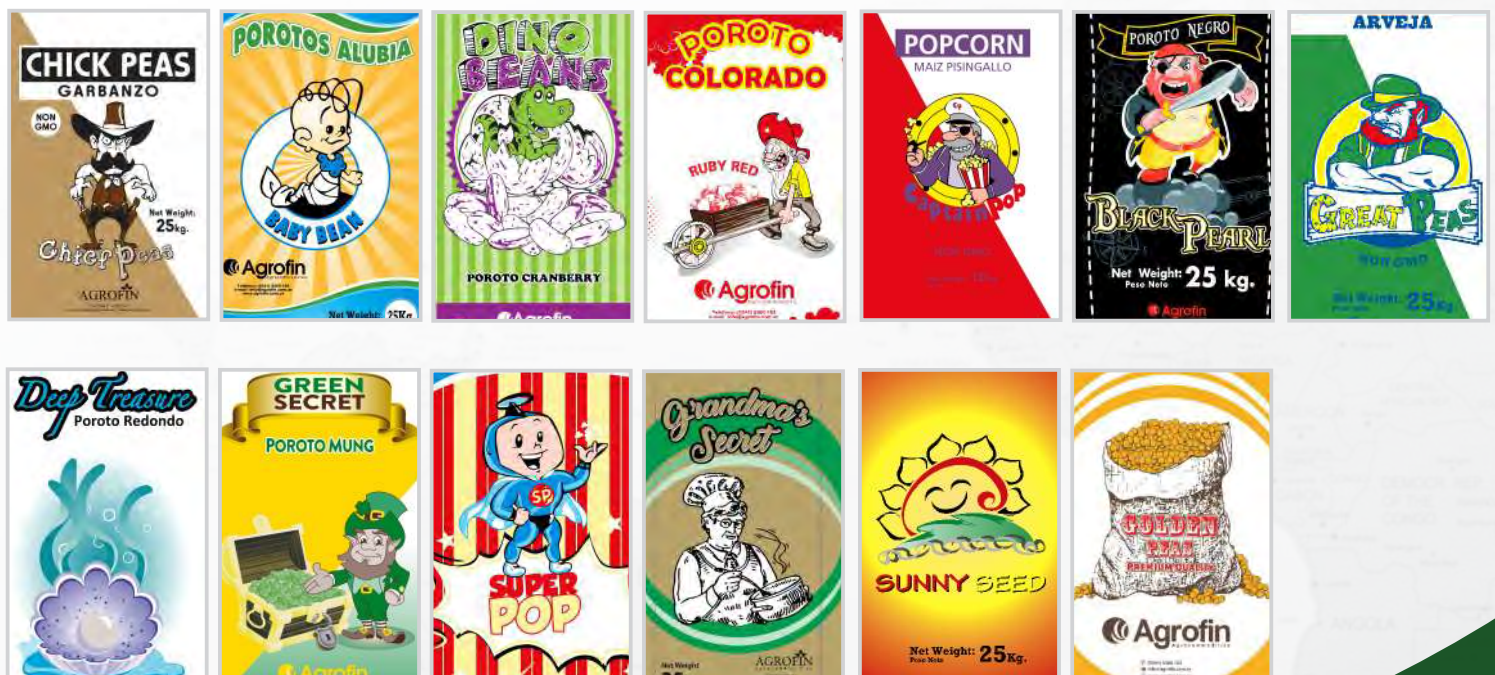

The administrative and commercial headquarters are in Rosario City, Santa Fe, well-known as the nucleus of agri-food production, having access to international seaport and an international airport. With this strategic localization we can supply customers in more over 100 countries, with an average sales volume of 25.000 mt/year.

**Own brands and production**

We export our products with recognized design brands, and we adapt to the type of packaging and ability required by the destination market (10-20-25 kg).

In 2020 we are committed to the implementation and improvement of a Quality Management System by the ISO 9001:2015 Standard requirements for the following scope: "Management of Production and Marketing in the Domestic and Foreign Markets of Non-Conventional Products also known as Specialties"

We are producers, guaranteeing the traceability and follow-up of the product along the whole supply chain. Furthermore, we have agreements with producers for the origination of natural products (60%), which also guarantees traceability and follow-up of the product with our own staff.

## Productive and storage processes

We are certificated BMP - HACCP - KOSHER - HALAL and we are registered with the National Entities to guarantee the food Quality (SENASA).

Each shipment is verified and certificated by TUV RHEINLAND, both for the quality conditions of the goods and the status, preparation and fumigation of the containers being used.

All storage operations are centralized in tax warehouses in Rosario, which is guaranteed by our own staff, as well as by quality inspections and proper storage of the goods.
